

Erasmus Greece - Feedback

VPLUHAROVA 18. LISTOPAD 2022 14:20 UTC

What did you like the most about the mobility in Greece? (In general)

In general, I liked everything that we did all together! For example, the indoor and outdoor activities, the taste of the traditional cousin and also the interesting conversation with the other children!

That I was lucky enough to see all of the reactions of my friends in erasmus that came to greece for the first time to all of the seesights and activities we did here!

I definitely liked our trip to Nafplio the most, the bus ride did get tiring but it was all worth it in the end.

The thing i liked the most is the sailing kayiak and kano activities that we did .

I liked everything that we did this week. All the games, tha activities, the places that we did were amazing. But the most exciting thing it was the new people that met

the beautiful landscapes and people I met through this program

I really liked the fact that I made new friends out of Greece. We had a lot of fun .

I liked how we all bonded and came together as a group from all the activities that we did

I really liked everything we did. I loved the ancient places and also I really enjoyed the day we all went sailing together!

I liked everything that we did. The walks, the trips, the food, the other activities... Everything. It was an amazing week

I liked more the activities we did at the Piraeus, but also all the archeological sites we got to know

I liked most the day when we were in Piraues and we do the facilities all together it was really fan

I liked everything from the people to the ancient places we visited , the food we ate , the teachers the souvenirs everything was so colorful and pretty

I really liked the hospitality of the Greeks and the monuments

I liked that people, everyone was so nice, and friendly. Second think i liked was all the trips because it was so beautiful seen it in real life and on that trips we get closed with that peoplee and ofcourse it was great experience.

I appreciated the possibility to know a new country with new habits

what i like the most is the friendships that i mande whit students, techers and the family

I liked everything, it was fantastic to be here. I am so glad that i was there. People in Greece are so nice to everyone. Greek teachers were amazing aswell!

I enjoyed seeing all the monuments and places but I was mostly happy to see the Parthenon.

I liked everything, but the people here were the best, they were funny, kind and above all kind.

The best things were certainly the school, its students and its teachers, which were all really kind and funny, but also the family that hosted me which was very supportive and kind as well, i actually ended up having more fun with them than at the monuments.

I liked Everything but the thing that i liked the most was the Museum

I liked everything but a very interesting thing to see was the Parthenon

What was your best experience in Greece? (You can describe a specific happy memory you have from that time)

Every day had it's own delights, but the most worth taking about will be our first visit in the Archaeological Museum, of Athens.

It was definently the last dinner everyone had together in which almost everyone bursted in to tears

One of the best experiences I had was doing everyone's traditional dances, the water activities we did were also really fun!

The best experience that i had is when i floipped the kano boat upside down

All the things that we did this week were amazing but I enjoyed the most the activities that we did in the gym with the other students

all the activities we did were great but I loved the day at Pasalimani

The day we did those sports activities in Piraeus was my best experience. It was a wonderful experience.

Me too had one of my best experiences in Piraeus and and I had a lot of fun with my friends – ANONYM

Everyday was special but the one I enjoyed the most was the day in Nafplio

I really liked the excursion we went to Nafplio! We took lots of pictures and made new memories!

I really liked the day when we went to nafplio. I was super pretty and the view was incredible

My best experience was the sports activities we did in Piraeus. I learned new sports, which may help me in the future to get to know them better..

I liked the last day when we took photos so that we can remember our last times together!!!

That one specific walk we took just some of us at the evening after the trip in the center of the city

I really enjoyed visiting the Parthenon it was exciting to see it live for the first time and not in a video

Best memory was when we were on lunch 😊,
I won't say why but it was nice. After that lunch was really nice to see Nafplio, it was very beautiful there. When we have free time there we get really close with someone, most time there we spend at boxing machine really nicee, we bought there some souvenirs, also there was good ice cream :) . I love to remeber this day it was my favourite from whole trip.

I enjoyed my host family. They were very friendly and fantastic. I liked Greek school and Greek people

**i think the last way that os when i
rimemeber every think and i spemd time
whit every one**

**I really enjoyed us hanging out after school,
but also Nafplio and Kayaking were really
nice.**

**I really enjoyed the swimming activities and
hanging out with my friends, but my
favourite was when me, my italian and greek
friends hung out to the city mall. We went
rollerskating and we also played bowling
and i also tried Souvlaki which was
delicious.**

when we went kayaking and swam in the sea. The trip to the
Acropolis was also very nice

**I really enjoyed going kayaking and going to
nafplio: the kayaking was very fun mainly
beacuse of all the funny moments that
happened with the kayaks, but also beacuse
it was so fun to be paddling, at least in my
opinion;Nafplio was very interesting
because its buildings and shops were very
peculiar and colorful. Another great
experience was the museum, mainly
beacuse there i got more time to chat with
people and make friends.**

**Another thing that i liked was we went
kayaking**

I enjoyed visiting Napflion and I also had fun when we went
kayaking

**Has the mobility enriched you in
any way? How?**

Of course it has!This mobility gave me the opportunity to
communicate with people from other countries and also to
experience their way of thinking.

To improve my english, my social skills and communicate better
with everyone . It also tought me how to build and keep strong
relationships

**It helped me socialize with others and make
friends from other countries**

**It helped me build a better relationship with
the teachers and the kids from erasmus**

**The mobility helped me to improve my
English, learn the culture and the language
of the other countries and also meet new
people**

It helped me learn words from other countries, get to know
traditions and make new friends that I feel like family

**The mobility helped me understand the
culture of each country. I also made new
friends from around the world.**

**Yes I learned a little bit from different
languages I had the opportunity to practice
my English and of course to learn from
different cultures**

**Of course it has! It helped me to learn about
the different habits that other countries had,
I also made new friends and created many
beautiful memories. Finally, through the
mobility I can speak better English!**

Of course it has! I met new amazing people and became friends
with them, i learnt some new words in other languages and tried
stuff i never actually would. And most importantly, i had so much
fun

This experience helped me to speak better English, to learn new
cultures and customs from other countries

**Yes i learned some new words and other
things the other countries do in their
everyday life**

Ofc i met new people and made friendships that could last lifetime i also learned some worlds in different languages

yes of course, I had the opportunity to perfect my English and make an effort to speak it but also to discover the Greek culture and their traditions

Of course , i'm not shy to talk in english with someone now
I also learned some greek words
One day we try to teach each other to say
Hii how are you i'm fine you? And something like thiss in our language
It was fun.

this mobility gave me the possibility to know another culture and another country

Enriched my English and i learn some words um greek Italy and check republic

I learned some Greek words, also something about their culture. I improved my English and i finally know a can talk to people from other states witf no problem!

Of course it enriched me because I learnt a lot about the Greek culture and about the food and places.

I've improved my English... I'm finally not afraid to talk to people in English. I also learned something about Greek culture and ways.

It certainly made me know more about greek culture and food, but it also helped me to bond with other people, as well as learning how to read the greek letters, at least for the most part.

It enriched me in a cultural way and this Experience made me less shy and made me more responsible

Well going in another state without your parents and staying there without your parents was for sure a big responsibility so I would say that it helped me to become more responsible and it also enriched me culturally because we tried different foods for example and we listened to people speaking another language

Is there anything you would like to change or do differently in future mobilities?

The only thing that I would like to change will be the period of time that the children spend in Greece, wish it was more!

I wouldnt change anything! I really wish I could spend more time with everyone!

I wouldn't change anything for the most part, it was all fun, even if it got really tiring for me I don't regret taking part and meeting everyone!

I wouldn't change anything but the time we got . For me it should have been 2 weeks not one.

I wouldn't change everything. All the things that we did were amazing and the memories that we made are unique. It could be nice though If the mobility would last a little more longer

I wouldn't change anything, everything was great, I just wanted it to last longer, but I'm looking forward to my own trip

There isn't anything I would personally like to change for that week. All the activities were interesting.

There isn't anything I would change, everything was perfect but I wish our visitors could stay longer than one week

I wouldn't change a thing, I honestly had a great time! But I would like this mobility to last longer.

Not really i liked every part of the mobility. I wouldn't want anything to change

I would not want to change anything, but I think we need more time for such experiences...

I just wished we had more time and more memories together

I wish I could have spent more time so that those good times would not end

Spend more time there with everyone or visit Greece and see everyone one day again

I would like to spend there more than one week

The time in the school with everyone i think it should be buffet and the time that we stay in the country i think a little bit more it will be good

The only thing i would change is that i would love to stay a bit longer. But it was the best anyways.

I don't think i would like to change something because Everyone and Everything was good

I can't imagine a better experience to be honest

I wouldn't change anything. It was my greatest experience ever.

The only thing i would like to change is to meet up with my friends as often as possible, since in Greece i didn't hang out with my friends a lot.

I don't think that there is anything that I would like to change for future mobilities
